SOCIAL STRUCTURES OF DIRECT DEMOCRACY

ON THE POLITICAL ECONOMY OF EQUALITY

By John Asimakopoulos

Available at a discounted rate of 30% off the cover price to students with use of the coupon code: "SCSScourse"

"[A] lucid and powerful analysis of the threat that inequality poses to any viable democracy ... [providing] more than a critique of inequality, it also offers a stirring program for change at a time when democracy is under dire siege. A must read for anyone concerned about the fate of democracy in the United States."

—Henry Giroux, author *Neoliberalism's War on Higher Education*

"John Asimakopoulos offers a provocative, sharp analysis of matters that are often discussed, but rarely understood, as shaping the larger political discourse of our day. He examines the complexities of movements as well as strategies aimed at winning victories for the working class. His words are certain to change the way you see our potential.

"—Ernesto Aguilar, Editor, *Political Media Review*

A STIRRING, GROUNDED, AND scholarly case for Direct Democracy as the route to a more just society.

Neoliberalism has pushed capitalism to its limits, hollowing out global economies and lives in the process, while people are left with no voice. Asimakopoulos addresses this problem with a theory to practice model that attempts to reconcile Marxism with democratic theory, and offers a vision of an egalitarian society.

JOHN ASIMAKOPOULOS, Ph.D., is Full Professor of Sociology at the City University of New York and executive director of the Transformative Studies Institute (TSI), an educational think tank. He has advanced degrees in and has taught sociology, political science, and economics resulting in a unique interdisciplinary perspective
